HR LIMS Training Center

simpleportals

Manage your course offerings, employee training schedules and feedback all in one location.

This site is dedicated to providing the best training materials for employees to excel in their jobs. This may include frequently updated training materials, videos and courses. Delegate responsibilities to your staff for creating courses and maintaining classes, or keep that role for yourself; this solution is very flexible. Users can easily and quickly find current available courses, past training materials, and track their own progress.

☑ ORGANIZE COURSES

Create New Courses

Quickly create entire curriculums with this solution. The intuitive interface facilitates rapid development of courses for your staff.

Track Participants

Track exactly who signed up for what courses from an efficient dashboard. Set maximum class capacity and prevent overbooking of courses.

Add Course Materials

Add all of your course materials in one place so you staff can both prepare for a course as well as review the materials without ever leaving the course menu.

☑ AUTOMATED ALERTS & NOTIFICATIONS

Send Notifications Automatically

This solution automatically notifies the instructor and the student after they sign up for a course. It also has options for when to remind the student of the impending training date, as well as provide an avenue for feedback.

Get Feedback

Get feedback from the students on courses and trainers to see what works and what needs improvement. Provides an anonymous system for honest feedback.

☑ TRACK PROGRESS

Track Ongoing Courses

See courses that you are signed up for in one concise dashboard. Sign up for courses and cancel when needed, all without admin involvement.
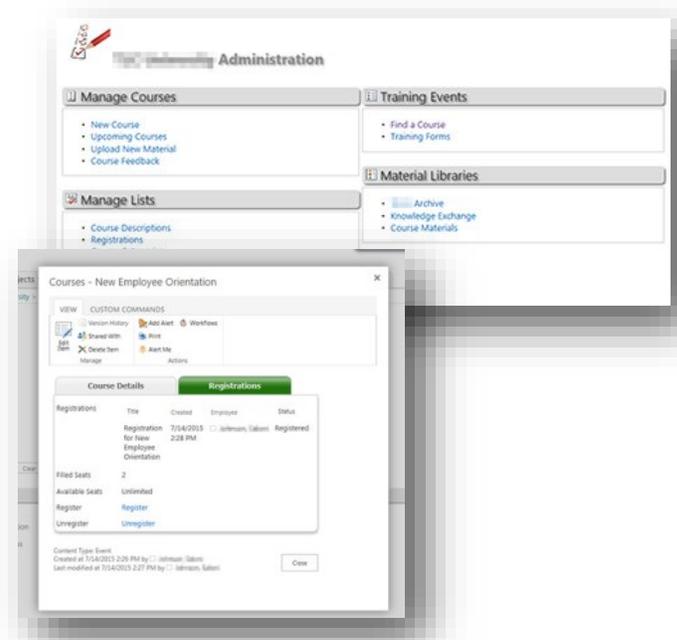

View Previous Courses

Easily view courses that you have completed in the past and track where you are in a curriculum. Fill in gaps in knowledge and schedule them in one location.
